SELECTMEN'S REPORT

To the Inhabitants of Dighton:

After four years of war, a struggle unparalleled in history, embroiling nearly all of Europe, and our own country, an Armistice was signed.

We all rejoice because of the prospect of peace and the privilege of soon welcoming home most of our boys.

We have been generous in supporting the charities connected with the prosecution of the war, and liberal in the purchase of the Liberty Loan Bonds. About \$258,000 has been invested in the third and fourth series. A reasonable amount of military training is necessary and needed.

Our Company of State Guards should be encouraged and supported, its ranks should be kept up to the standard and when needed recruited from our citizenship.

STREET RAILWAY.

We must all admit that our Street Railway is a public convenience and necessity.

Its financial embarrassments, its deplorable road bed, its service to the public, its urgent demands for more revenue are subjects well and fully considered at numerous hearings given by the Public Service Commission.

The interests of the Railway Company and the People have been ably presented, but no satisfactory solution of the difficulties has yet been reached.

Being a medium of exchange of commodities between the country districts and cities, a source of relief to city congested sections, an aid in solving the homestead project, an easy and cheap mode of travel, we should demand reasonable fare charges and good service.

If a private company cannot meet the requirements, then we must look to the State, aided by the County, Cities and Towns, to provide such service by some method of public control.

HIGHWAY.

A section of 3,100 running feet of Williams Street to a point near Center Street has been macadamized, costing \$6,000. One-half has been paid by the State.

We recommend that the work be continued the coming year and that a like sum be appropriated. We are assured that the State will pay one-half.

Summer Street has been greatly improved, widened, sidewalks built, macadamized twenty feet in width; the town paid \$3,500. The construction was done by the Mount Hope Finishing Company.

Elm Street in the Broad Cove neighborhood has long been neglected. We are informed that Somerset is about to macadam from Buffinton's Corner to the Dighton line.

Owners of real estate offer to furnish stone and cart to the crushers.

Under these conditions the town ought to make a liberal appropriation.

Respectfully submitted,

CHARLES S. CHACE,	} Selectmen of Dighton.

REPORT OF THE SCHOOL COMMITTEE

Superintendent's Report

To the School Committee of Dighton:

Loss of Time.

No statement of the school year's work would be complete without a mention of the loss caused by a closing of the schools for four or more weeks. To some this does not appeal because they are not in close touch with the schools or think that in some mysterious manner the pupil will absorb enough education to get through the grade or complete the year's work. But to the teacher and school officials well as a few homes, loss of time is a source of anxiety. Time can never be made up neither can it be substituted. We either move along with the current of the stream or are left behind with all the connecting results. Although some localities are conditioned more than we are yet our position is serious because so many of the homes depend upon market gardening for an income. After a careful survey of the whole subject it was decided to shorten the winter vacation and lengthen the school year one week in June. Even under these conditions two weeks of time will be lost. Although teachers and pupils will intensify their work, yet it will be impossible in some cases for pupils to complete the grades. Some work must be left over to the following year and the loss charged to the debit side of life's account.

School Attendance.

This is a perennial subject. It must remain such until a reasonable degree of perfection has been attained. That degree is the inalienable right of a child to an education that comprises the first fourteen years of his life. Since that child is to become an American citizen it is not within the province of the parent to say when or how much his child shall attend school. That prerogative belongs only to the state and the nation. During the past two years, while home labor has been in great demand, the child has been sacrificed to the greed of the home. The large wage attainable in the mill has so preyed upon the cupidity of many a parent that he has forced the older child into the factory and kept the younger one to work at home during school hours. When appealed to by the attendance officer, such a parent will present a variety of excuses, frequently based upon an overdrawn imagination, and continue to cheat his child and the nation. This procedure is radically wrong no matter by whom practiced. Until every man, voluntarily or by compulsion, obeys the laws of the state, a stable democracy is theoretically only. To give a child only an half opportunity for an education is failing to give him an opportunity to become an American citizen. Far more frequently than is thought, pupils leave school when in the 5th, or 6th grade. Such a child, because there are neither books nor papers in the home to maintain school standards, relapse into a degree of ignorance that prevents him from becoming a man among men in any business way. When the national census shows that in Bristol County, of this Commonwealth, there is an illiteracy of 10.8 per cent., it is time that the children were given a chance to attend school instead of being cheated year after year of their rights by their ignorant parents. Any sane citizen need only look at present European conditions to fully realize which is the safer element in any country, educated or uneducated.

Work or Play.

It is not a very uncommon practice to have a pupil in the high school so neglect his work that he fails to receive a passing mark. Perhaps a slight margin should be allowed for extenuating circumstances for which the home is responsible, but in the main it is a personal affair with the boy or girl. He does not appear to sense the fact that the high school is far different from the country school that he last attended and which sent him out to try his fortunes with scores of others. In the high school marking time is not enough. Being in faithful daily attendance is not sufficient. Faithful thorough preparation of all lessons and good recitations must be added to such attendance. Furthermore there must be an ambition to reach higher rank by hard work no matter how many hours the preparation of a lesson requires. It is not just to the town that pays the tuition and transportation nor to the state that may or may not in part reimburse the town for such expense, to allow undue shirking. Such a practice encourages an obtuse view of rights and privileges by pupils and leads them to think that they have an inalienable right to disregard all responsibility at their own pleasure. Occasionally the home will encourage such a child to change from one school to another, which for the major part is of doubtful benefit, in order to prolong the day of final failure. Such procedure is wrong for the pupil, who if he will not do his full duty at school, should be placed at some useful occupation. If a parent is determined to indulge his child in this manner, after a fair trial of one year in the high school and the failure of such a pupil to maintain a passing rank, he should pay all bills and take the consequence with good grace.

Enlargement of School Buildings.

During the summer vacation Flat Rock School building was enlarged by the addition of some 12 feet. This

adds much to the comfort of the children and provides sufficient room for some future years. This enlargement was imperative as can be proved from census statistics. Furthermore there is an equally urgent demand for similar enlargement of the Fish and Williams school buildings. There is no other remedy except the transportation of pupils to the central schools. The demand for these enlarged surroundings is not caused by some sudden influx of people, but is rather the result of slow and steady increase of population. This tends to substantiate the theory that whatever enlargements are made will be in demand for some years to come. In making these improvements due regard should be given to light, ventilation and sanitary needs.

With pleasure we express our thanks to all who have aided in making the school work of the year successful.

Respectfully submitted,

MORTIMER H. BOWMAN,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

To Mt. M. H. Bowman, Superintendent of Schools:

Dear Sir:—For the work in music, in the schools of Dighton, practically the same plan is followed.

Each year the effort is made to thoroughly accomplish the work specified for each grade.

The study of music principles, ability in sight-reading, good pitch, the interpretation of songs of various character, and interest in music, are some of the points emphasized. Patriotic songs are sung. More Christmas carols were learned this year.

The power of music is unlimited. It makes us, it soothes us to sleep.

It is necessary for glad occasions, and also for sad ones. The war has helped to show the tremendous force of music.

Let us have music, and still more music.

Respectfully submitted,

NELLIE F. HAMMANT,

Supervisor of Music.

REPORT OF ATTENDANT OFFICER

To the School Committee, Dighton, Mass.:

Gentlemen:—

I herewith submit my report for the year ending Dec. 31, 1918. I have made 206 visits in investigating the causes of non-attendance. In most cases the fault lies with the parents.

The influenza epidemic of last October interfered to some extent with school attendance. I think all connected with the schools for their cheerful co-operation.

Respectfully submitted,

HOWARD C. BRIGGS,

Attendance Officer.
